Requesting Provider

Dr. Greg Hanson, DO -- Anesthesiology, Interventional Pain
NPI: 1720385946
Practice: Erie Shores Interventional Pain
Phone: (440) 555-0190 Fax: (440) 555-0191

Requested Service

Requested service: Permanent spinal cord stimulator pulse generator implantation (after successful trial)
CPT 63685 ICD-10: M54.16 (Radiculopathy, lumbar region); G89.29 (Other chronic pain)
Planned admit date: 2026-11-12
Level of care requested: OUTPATIENT
Place of service: Ambulatory surgery center.

Submission Contact

Submitted through the provider portal by Wanda Oyelaran, Authorization Coordinator.
Callback: (440) 555-0190. Supporting clinical documentation attached (5 pages including this request).

Pain Clinic Progress Note

Date: 2026-09-30. Patient: Steven Lopez, age 64, male.

History

Chronic low back pain with right leg radiation for 6 years, no prior spine surgery. MRI shows multilevel degenerative disease and a right L5-S1 foraminal narrowing. Two epidural injections in 2024 with temporary help.

Medications: oxycodone 15 mg three times daily, gabapentin 300 mg twice daily. Physical therapy: home exercise program only. No formal PT.

Urine drug screen 2026-08-19: positive for oxycodone and also positive for a benzodiazepine that is not prescribed. Patient says a friend gave him one tablet. Counseled. A repeat screen has not been done.

Spinal cord stimulator trial

A 7-day percutaneous trial was done 2026-09-16. Patient reports he is 'a little better.' Pain went from 7/10 to about 4.5/10 on the diary. Oxycodone dose unchanged. He says he can do more around the house.

Plan

Proceed with permanent SCS implant. Psychological evaluation was ordered 2026-09-16, not yet completed.

Trial Diary Summary

Patient-reported pain scores during the 7-day trial (0 to 10):

Day 1: 6 Day 2: 5 Day 3: 5 Day 4: 4 Day 5: 5 Day 6: 4 Day 7: 4

Baseline average before the trial: 7. Average during the trial: 4.7. Percent reduction: about 33%.

Medication log: oxycodone unchanged at 45 mg per day. No reduction in pain medication.

Function: no objective measure recorded.

Consent Form

Patient signed consent for a spinal cord stimulator trial and permanent implant on 2026-09-02. Risks and benefits listed on the standard form.

No separate educational visit recorded.

Fax Cover

Please authorize permanent SCS implant. Procedure to be done at our ASC on 2026-11-12. Psychological evaluation results will follow.
