

Prior Authorization Request - Inpatient Admission

Member: John Doe DOB: 1955-03-14 (age 71) Member ID: MBR-0042

Requesting facility: Riverside General Hospital, Utilization Review Dept.

Requested service: Elective inpatient admission, open lumbar spinal fusion, L4-L5

CPT 22612. Planned admit date: 2026-10-06.

Level of care requested: INPATIENT.

Surgeon Operative Plan

Diagnosis: lumbar spondylolisthesis L4-L5 with neurogenic claudication.

Plan: open L4-L5 decompression and posterolateral fusion with instrumentation.

Surgeon expects a multi-day stay for pain control and mobilization.

Exact length of stay not documented.

Shared decision making documented with the patient.

Imaging and Conservative Care

Flexion-extension radiographs show dynamic instability at L4-L5.

Failed 6 months of conservative care: physical therapy, NSAIDs, two epidural steroid injections.

History and Physical

71-year-old male. Past medical history: heart failure, EF 40 percent; type 2 diabetes, HbA1c 8.1 percent. Hypertension. Former smoker.

Cardiology Clearance

EF 40 percent, NYHA class II, stable on therapy. Cleared for surgery with elevated peri-operative cardiac risk. Recommend telemetry monitoring and cardiology co-management post-operatively.
